Dear Vendor/Clearinghouse:

WPS is planning to host an open forum prior to May 23, 2007 to discuss NPI readiness and define contingency plans to ensure successful NPI implementation for all our EDI trading partners.

Currently, WPS is receiving NPI information on approximately 32 % of our EDI claims for Medicare business. For WPS commercial and TRI CARE business we are receiving less than 5% of our electronic claims with NPIs.

We would like to encourage all vendors/clearinghouses to complete and return the following questionnaire so we may provide your company with the best possible NPI -related service.
