Pre-Certification

A pre-certification is a decision that inpatient services, including surgical and diagnostic services, meet the criteria for medical necessity under the member's benefit plan.

Pre-certification may be required for all inpatient hospital admissions.

1. Before requesting a pre-certification, please contact Member Services to verify eligibility, and benefits through Member Service.
2. Verification of member eligibility is valid if obtained within five business days of service, except in the case of misrepresentation.
3. Members are encouraged to review their benefit booklet for specific pre certification requirements, excluded services/treatments and referral requirements. **Contract exclusions will not be pre-certified.**
